

Car Park Decking & Concrete Repairs

SilberPalais Offices Car Park

Silberpalais in Duisberg, Germany is a high quality Office Building used by International companies and owned by BNP Paribas. The Car park is used daily by tenants and visitors.

In late 2012 Larsen Contracts were appointed to undertake Concrete Repairs and replace membranes to Car park ramps with an area of 520m².

The Car Park was to remain open for the duration of the project so works to ramps were scheduled between hours of 7pm and 7am over a six week period to avoid disruption to tenants.

Defective screed was removed with Kango hammer and then reinstated with primer and new epoxy screed and coated with Degafloor RTU system.

The products selected were : [Degafloor RTU a heavy duty MMA Car park flooring system](#) which cures fully within 1 hour offering minimal disruption ,excellent skid resistance , crack free performance and colour stability
