

Line Marking – Penneys (Liffey Valley S.C)

As part of the construction of the new storage warehouse for Penneys at the Liffey Valley shopping centre, Larsen Contracts successfully tendered for the line marking works in this area.

The new warehouse is going to be the primary storage facility for the existing shop outlet. As part of the traffic and works management plan for the warehouse, areas were detailed to be marked with appropriate directional arrows in order to direct traffic. This consisted of applying a directional arrow/line every metre along the exterior lines throughout the whole area ie the main warehouse as well as on the corridors . The line marking had minimal disruption time to the opening of the warehouse as live areas were handed over as a priority.

Project Details:

Location: Liffey Valley S.C, Co. Dublin

Client: Penneys

Main Contractor: Larsen Contracts

Application:
Traffic-Line Yellow Marking Paint

Market: Retail / Distribution
